CAREER OBJECTIVE

Versatile Software Developer with a strong foundation in full-stack development, passionate about leveraging technology to create meaningful, user-centric solutions. Seeking a challenging role to contribute to innovative projects while growing professionally in a dynamic environment.

SKILLS

HTML, CSS, SASS, JavaScript Typescript,
Node.js, React, Angular, C#, SQL, Python,
.NET, MySQL, GitHub, Azure

TECHNICAL EXPERIENCE

Software Developer - BCIT Industry Project -   *04/2024-05/2024*
Onelota Performance Inc.

- Worked as a full-stack developer to enhance a golf training web application, improving pre-event planning and post-event reflection for athletes by 30%.
- Developed backend infrastructure and optimized models, interfaces, and services to support the scalability of the system.
- Created dynamic and responsive user interfaces, enhancing user engagement and overall satisfaction.
- Used MySQL Workbench for efficient database connection and management.
- Designed data collection systems to capture user activity, laying the groundwork for future machine learning model development to provide activity-based suggestions.

Software Developer - BCIT Internal Project -   *12/2023 - 02/2024*
WildPaths

- Developed a high-performance web application adhering to structured development processes, focusing on data management and secure transaction handling.
- Emphasized advanced data management and adhered to MVC architecture principles.
- Implemented secure payment processing using PayPal, enhancing the application's financial transactions.
- Ensured responsive design across devices, improving user experience.

WORK HISTORY

Software Developer Intern | IICA - Quito (Remote)   *09/2023 - 09/2024*

- Designed and developed comprehensive prototypes using Figma to visualize and test user interface concepts, enhancing team understanding and project direction.
- Collaborated with cross-functional teams to identify system inefficiencies and implemented solutions that improved system performance.
- Assisted in the creation of comprehensive documentation for developers and end-users alike.

Tour Guide | Stable Harvest Farm - Langley   *04/2020 - 01/2023*

Waitress | Viva Mexico Restaurant - Langley   *01/2017 - 02/2020*
